

One Earth Choir - Seen and Drawn by the Children

by Anna Bacchia & the Consciousness Institute, Lugano, Switzerland. <https://OneEarthChoir.net>

An Initiative dedicated to the deep human **interconnection**, to a renewed **awareness** of **being One Humanity**, and to **Peace**, as pillars of a new human culture. For a new vital **co-habiting** the **Earth**.

In collaboration with our *global partners*.

The Project and its meaning - up today: **3.6 million** participants.

One Earth Choir is not a choir of singers, but it is made by persons around the Earth who embrace & share the theme: *“we have many native languages, but one only human language, we are one only humanity”*.

In this project, the **Symbol** of our *Human* language is a **music**, that **people** around the Earth **listen & share online** (or play, or sing): *on the **same day**: 24th February 2024 (and every year in February), *at the **same time**, 11am UTC, in order to perceive, co-participate and share together our *being One Humanity* on Earth.

Where **Peace** is not a goal to achieve ‘outside’ of us, but it can exist only if we recognize and create it as a deep innate Quality of ours: of **the Life which we are**.

The Children’s Drawings about One Earth Choir

We are very grateful to all the Children from all over the World, who can express **their Vision** of *One Earth Choir* and of *One Humanity on Earth* through their **drawings**.

Their Visions are **seeds**: touching and inspiring symbols of **spontaneity**, of **creativity** and of the innate **essentiality** and **richness** of vision which spontaneously breathes within each human being. Seeds able to naturally inspire **empathy**, **Peace**, and ‘Unity in Diversity’, where *“what you deeply feel and need is not ‘other’ than what I deeply feel and need. What you naturally search for as living being, is not ‘other’ than what I naturally search.”* Example drawings: <https://OneEarthChoir.net/children/>
